Industrial Coatings

Whether your coatings cover metal, plastic or concrete, L.V. Lomas offers the deep knowledge and wealth of options to help you succeed. From durability to flow and adhesion – even high heat formulations – we have over five decades of service in helping to formulate industrial coatings that meet and exceed the most demanding objectives.

Below you will find a list of solutions which L.V. Lomas supplies to the Industrial Coatings industry. All products are of the highest quality and sourced from the world's leading manufacturers.

Function	Solution
Abrasion Resistance	Nepheline Syenite, Ceramic Spheres, Silica, Fumed Alumina
Additives	Defoamers, Flattening agents, Adhesion promoters, UV Absorber, HALS Stabilizers, Anti-Sag/Settling Agents, Hydrocolloids, Stain resistance, Invisible Silicone sealers
Catalysts	Low colour-non metallic driers, Metallic driers, Tin and Tin free catalysts, Anti skinning agents
Filtration	Bags, Cartridges, Screens, Housings
Functional Extenders	Nepheline Syenite, Clay, Precipitated Silica, Ceramic Spheres, Ultra Platy Talc, Barium Sulphate, Aluminum Tri-Hydrate, Silica, Calcium Silicate, Diatomaceous Silica
Opacity Extenders	Ultra-Fine Particle spacers, Amorphouse Sodium Aluminosilicate, Calcined Clay
Packaging	Metal and Plastic: Pails, Gallons, Quarts, Pints. UN and non UN
Pigment Dispersions	Organic, Inorganic, Carbon Black: Available in Universal or Zero VOC
Pigments	Carbon Black, Iron Oxide, Inorganic, Organic, Pearlescent, Silver Metallic, Multi Color Effect, Titanium Dioxide
Plasticizers	Zero VOC Coalesent, Pthalate free esters, Epoxidized Soyabean Oil, Pthalates
Preservatives	Anti Microbial, In Can Preservative: Low and no-VOC grades
Resins - High Solids	Acrylic, Epoxy, Reactive Diluent, Polyaspartic, Alkyd, Urethane, Polyols, Aliphatic Isocyanates
Resins - Solvent Based	Acrylic, Acrylic Polyol, Alkyd, Urethane, Moisture Cure Urethane, Hydrocarbon, Castor Polyol, Epoxy, Silane Modified Resin, NISO, Fluoropolymer
Resins - Water Based	Zero VOC Alkyd Latex, Acrylic Latex, PUD, Oil Modified Urethane, Epoxy
Solvents	Renewable source Propylene Glycol, Zero VOC Solvents, Methyl Ester, D'Limonene, Pine Oil, Ethyl Lactate
Surfactants and Dispersing Agents	Pigment Dispersing Agent, Specialty 100% solids Dispersant, Silicone Surfactant, Fluorosurfactant
Viscosity Modifiers	Fumed Silica, Precipitated Silica, HEUR, HASE, Ultra-Fine Cellulose Fiber, Attapulgitte Clay, Organophilic Clay,

These are just some of the hundreds of solutions we can bring to your business. Call your L.V. Lomas representative today and start converting your challenges into flawless products.

Proudly representing our Principal Partners in the Industrial Coatings Industry.
